**DETAILED ACTION**

***Election/Restrictions***

Applicant's election of Group I in the reply filed on 3/5/07 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Non-elected inventions including claims 11-19 have been cancelled by the applicants.

***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 8/21/06 has been considered by the examiner.

***Allowable Subject Matter***

Claims 1-10 and 20-22 are allowed.

The following is an examiner's statement of reasons for allowance: none of the cited references teaches or fairly suggests a beam-shaping optical element having "at least one of the entrance surface and the exit surface represented by a mathematical equation comprising a term representing a non-rotationally symmetric aspherical profile and correction terms, each correction term being a function of either variable X or Y, at least one of the correction terms being a function of variable X and at least one of the

correction terms being a function of variable Y" (claim 1, last eight lines) in combination with the remaining feature recited in the claim. Claims 2-10 and 20-22 are dependent claims and thus allowable at least for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Phan whose telephone number is (571) 272-2317. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allen B. Stephone can be reached on (571) 272-2312. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
